

# Product Attributes in List

v1.1.3 (Prestashop 1.7)

## Installation

*Product Attributes in List* is installed like any other module. Simply upload your archive and click **Install**. Module tested on **default** theme. For other themes it may need to be integrated.

## Usage

### *Back office*

In back office you have ability to switch visibility of quantity input, different types of attributes and chose type of radio button: radio - standart radio buttons, button - bootstrap buttons. If show prices switch is set to yes, than near each of attribute will be displayed price. This feature available for drop down and radio buttons types.

Show quantity	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
<i>Show quantity input</i>	
Show colors	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO

<i>Show add to cart button</i>	
More button	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
<i>Show more button</i>	
Radio button type	<input type="text" value="Button"/>

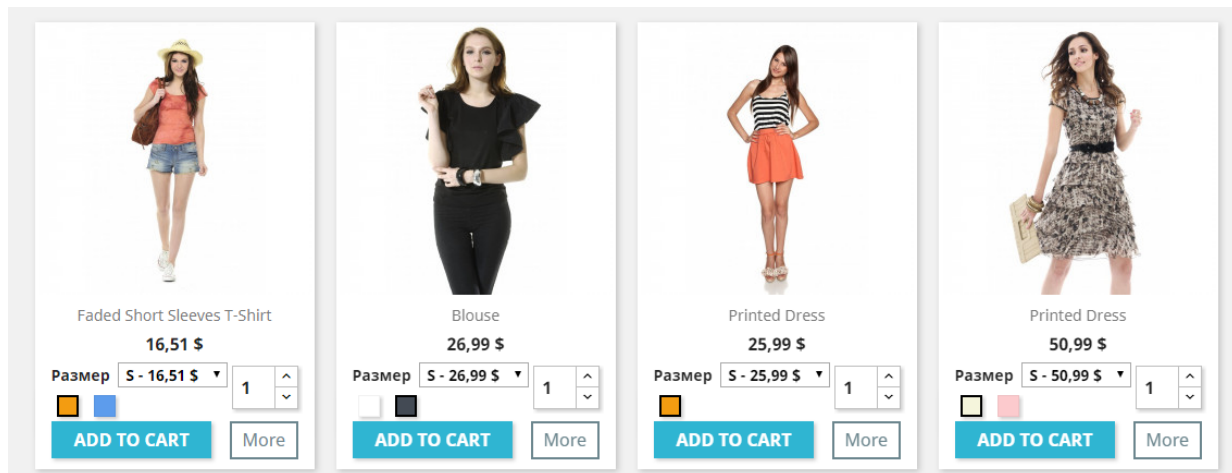

*Back office module configuration*

### *Add to cart button*

If your theme already has **add to cart** button in product list or other modules display product list with **add to cart** button then for proper work (add to cart chosen combination and quantity) you need to hide or remove this button and enable **add to cart** button in module configuration.

## Front office

Like on product page customer can choose color, size and other attribute, set quantity. Price, discount and image will change accordingly to chosen combination.
